

Ways to Register for Camp!

1. Have each church organize the mailing of camp registrations. The easiest way is for the church to write one check for the entire amount and each camper reimburse the church. Of course this takes commitment on each camper's part. Also mail early because the camps do fill up quickly and waiting lists are formed. The registration process at camp is always easier when the camper is paid in full before camp.
2. Have the church mail in the registration and pay the amount they will pay. For instance if the church will pay $\frac{1}{2}$send that with the registration and then the camper will bring the other $\frac{1}{2}$ with them or mail it in before camp begins.
3. Camper mails in the registration or full amount they will pay and then the church mails in their part with a list of who is covered on that check.

All of these steps are made easier with the use of the sheet on the back of this note. We are trying to streamline the process and not make mistakes....sorry we do make a few. The easiest way for the registrar is one check per camper. The best thing is when the church has a registration party in April or May, writes one check for all of the campers and the registrar receives one large envelope with the individual registrations and health forms. Thank you for your consideration of these suggestions.

All registration forms and the health form are available online at www.campcowen.org.

PLEASE NOTE:

When using this form, please remember to attach each individual registration form as well. In order to enter the information into the computer, we need to have the actual registrations and deposit in hand.
